KAGIN'S 1984 WINTER LONG BEACH AUCTION

After years of dedicated work by its organizers, the Long Beach Numismatic and Philatelic Exposition, held three times a year, is now widely regarded as one of the finest coin shows in the United States. An average of 300 prominent rare coin dealers regularly attend the shows, manning their tables and offering the buying public the widest range of numismatic material possible. A quick trip down any aisle finds many buyers and sellers discussing the full gamut of coin collecting and investing, from the potential Greek staters struck hundreds of years before Christ to the latest Olympic issues. The February 2-4, 1984 coin show was no different.

What was quite apparent at this show was that coin activity is picking up. From the moment the doors opened to the public, the aisles were full of people and, most importantly, money changed hands! Without question, this show was a real shot in the arm to the numismatic community, both monetarily and psychologically. The activity was boosted by a small jump in the price of gold and, by show's end, it was evident that everyone was well satisfied.

Kagin's auction, held in conjunction with this show, was the first of three planned for this year. A brief survey of the prices realized showed strong interest in United States gold, silver dollars, Choice condition commemoratives, and Choice type coins. With collector interest in rare coins growing strong once again, we are excited about the prospect of the remaining two 1984 Long Beach auctions and we would not be surprised if they became market trend setters for 1985.

We were pleasantly surprised by the prices a number of the lots realized in February's four-session sale. Please keep in mind these prices do not reflect the 10% buyers charge. In the first session a Mint State double-struck Fugio cent, with partial brockage, brought \$1,700; a 1797 large cent in MS-63 \$5,000; a seldom-offered Mint State 1865/4 Indian cent \$1,000. The scarce 1877 Indian cent in MS-63 was finally hammered down for \$1,500 after spirited bidding, and an 1877 nickel three-cent piece (key to the series) in Proof-63 hit \$1,800.

The highlight of the dimes was an 1846 Proof-65 that brought \$4,800. Among the Liberty Seated dimes were a large number of circulated key and semi-key dates from the Ahwash estate. These pieces received active bidding and, by and large, the resulting prices were generally commensurate with the quality and variety of each piece.

The second session started quickly. An 1805 quarter in VF-30 received many mail bids, with the winning bid of \$825 coming from the floor. As with the dimes, the Liberty Seated quarters from the Ahwash estate did well. For example, the rare 1849-O in VF-30 realized \$1,400. An 1884 in Proof-63 saw \$1,400 and a 1913 Barber in Proof-63/65 brought \$980.

One of the highlights of the half dollars

was an 1805/4 in AU-55 sold to a mail bidder for \$1,900. An 1853 with arrows in MS-60/63 sold for \$1,300, a Gem Proof 1908 brought \$2,700 and a lustrous 1915 in MS-63 realized \$1,000. Rounding out this session was a selection of high-grade circulated Bust and Seated dollars. This selection reinforced the strong collector base for attractive coins, as most of these dollars sold on the floor after spirited bidding.

The third session started with U.S. gold, which proved to be the most popular material in the sale. The gold highlights featured a glittering Proof-65 1907 quarter eagle that realized \$8,000 and a 1907 high relief \$20 in EF-40 that sold for \$3,900. The majority of the remaining gold would be considered the standard "bread and butter" issues that form the backbone of dealer inventories. Due to the wide selection offered and an encouraging gold market, these coins did very well, with almost every lot selling to a floor bidder.

The remainder of the third session was comprised of Trade, Morgan, and Peace dollars. To no one's surprise, these lots did quite well, reflective of their popularity with collectors.

Included in the fourth session were U.S. commemoratives. Those short of MS-65 which did not have natural eye appeal brought mixed results. If they filled a need by the bidder, they fared well; if not, they tended to languish. However, MS-65 commemoratives and those with attractive toning did very well, proving once again that quality is all important.

This session also contained a selection of U.S. currency and general world coinage. Several lots did quite well, such as the gold issues and crisp type currency. A number of lots sold to mail bidders for what we believe to be very reasonable levels and reflective of today's market for such items.

Catalog production for the June 1984 Long Beach auction is already well underway. This sale will contain approximately 1,300 lots, including several attractive early \$10 gold pieces, a number of Proof patterns, territorial gold, and both the round and octagonal \$50 Pan Pac issues. Of special note is a selection of high quality, beautiful world coinage, including both 1906 and 1908 Philippine Proof set, the finest Puerto Rico peso we have seen, and perhaps the finest known 1822 Mexican gold 8 escudos of Augustin I. We are certain world coin collectors will find this sale truly impressive.

Work is also well underway on our June Memphis Paper Money auction. Every day brings two or three exciting consignments and we can promise currency collectors and dealers an exciting auction.

Those already on our subscription list will receive these catalogs as soon as they become available. Others who wish to receive catalogs may send us \$5.00 per copy or subscribe to a 4-catalog subscription for just \$15.00.

DEDICATION

It is with great pleasure that Kagin's dedicates this entire catalog to the memory of Kamal M. Ahwash.

When the pioneers in numismatic education are counted, Kamal Ahwash must be included. His research and writing for the definitive Encyclopedia of United States Liberty Seated Dimes, 1837—1891, distinguish him as a man truly at the forefront of the hobby.

Presented in the Long Beach Sale is the final selection of material from Kam's prized personal collection. These half-dimes, dimes, quarters, half dollars, and dollars represent possibly the largest date and variety offering ever to come on the numismatic market.

We appreciate the opportunity to present this material and to have numbered Kamal Ahwash among our friends.

OVER THE YEARS

Commentaries based on cataloging 332 sales

The present strong demand for silver dollars in top condition continues. Some years ago, we sold sacks of 1,000 uncirculated Morgan and Peace dollars at face value, plus \$25 commission, and shipped them express collect. How could we expect them to ever amount to anything? Well, we were wrong. They were either melted or otherwise absorbed, and now continue their persistent popularity, regardless of economic conditions. The demand, particularly in top-grade condition, seems insatiable.

The other series have varying degrees of popularity. Proof gold has advanced about 50 percent in the past year. Early gold coins have also shared an increased demand. Later date gold seemed to appeal to more selective buyers, with top-grade specimens showing remarkable advances. Early type silver and copper have shown a more moderate advance, but the demand extends across the gamut of conditions, from Good to Unc. The later types are more popular in Extremely Fine to Unc. and Proof. As one astute collector observed, "The true Almost Uncirculated are undervalued compared to Extra Fine and Uncirculated." We are inclined to agree, as so many were ruined by polishing and cleaning over the years.

Currency has attracted a new group of collectors who collect "for the fun of it". Their primary interest is acquiring a decent specimen of each type. Usually Fine

to AU will suffice. We expect the collectors to become more discriminating as their sophistication increases. The year 1984 should produce an increase in demand (and prices) of top-grade specimens as these collectors develop.

Since becoming a member of the board of the ANA, an increasing amount of my time has been devoted to the remarkable fraternity. Yes, there are many aspects of a fraternity to this organization. Friendships, sharing of experiences, and devotion to a common cause are a few that come to mind. Hardly a day passes when I do not receive three or four letters in the mail from either the other members of the board or from headquarters in Colorado Springs. You can be assured that this is truly a "working board." Many of the ideas and suggestions that have surfaced so far are excellent, and I look forward to the mid-year meeting at the convention in February at Colorado Springs producing many innovative and positive changes.

I look forward to personally greeting as many of you as can make it to this convention. Remember numismatics encompasses not only the collecting of tangible items, but the intangibles such as friendships and shared experiences as well.

The ANA and I need your suggestions (as well as complaints). How can these be implemented unless you voice them, either verbally or in writing.

CURRENCY

SUPERB GEM CRISP UNCIRCULATED

A flawless note. Perfectly centered with sharp corners. Full brightness and absolutely no handling or other impairments. Wider than usual margins.

GEM CRISP UNCIRCULATED

Bright and well centered. Full original crispness with no handling or aging. A virtually flawless note.

CHOICE CRISP UNCIRCULATED

Flawless appearance. Close examination might reveal teller handling, minute pinholes, or very light aging. A note with an excess of the above-mentioned defects would not be considered Choice.

CRISP UNCIRCULATED

No folds or corner creases. May have obvious aging, rounded corners, handling marks, pinholes, or other flaws that indicate mishandling. A note that does not retain full crispness or appears starched should be examined for processed or pressed-out folds.

ABOUT UNCIRCULATED

The criteria are basically the same as for Uncirculated, but a note may have a single fold or several small corner creases.

EXTREMELY FINE

Two or three creases evident. The note should be bright and retain nearly full crispness.

VERY FINE

Notes show obvious use. May have several folds and have started to lose some original crispness. Light soiling due to normal handling is accepted.

FINE

Very little original crispness evident. Still exhibits original brightness, but shows much handling and soiling.

VERY GOOD

May be soiled and well worn. All engraved features clear and complete. Margins must be intact.

GOOD

Heavily soiled with no original color or body. May have frayed margins and small tears. Engraved features will be visible but not bold.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the descriptions in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lot you would like to have "if the price is right," then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a "bargain") by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. *Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00; we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00 — or if the floor bidding stops at perhaps \$450.00 or \$475.00, then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.*

How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings: Lot and Bid. When you decide on which lots you want to bid, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF SALE.

YOU ARE THERE

If you are unable to attend Kagin's auction, you can bid on material by mail or take advantage of Kagin's "unique" YOU ARE THERE SERVICE. A.M. Here are the basic procedures:

Your first step is to notify our auction department that you want to leverage your purchases. Indicate this on your Bid Sheet or registration card.

If you are a mail bidder, we will invoice the material and ship it directly to you for your approval. Note that 50% of the total of your invoice is due upon receipt of your material.

You then must ship the material to the West Coast Bank.

Once West Coast Bank receives the material and invoice, it will forward your loan documents to you. Complete and return them to West Coast, and the bank will send a check to our company for the remaining 50% of your purchases.

Upon receipt of the balance from West Coast Bank, we will then forward to you notice of "PAYMENT IN FULL" for your auction purchases.

- 1006 **1778-79** pewter, Betts 563. **AU-Uncirculated**. Sharply struck, exceptionally well centered pewter medal hailing British retreat from Naragansett Bay, Continental retreat from Rhode Island, Dutch legends with word VLUGTENDE below Admiral Howe's flagship obliterated by wreath.

Although only two were known to Taxay in pewter (Johns Hopkins University and New Netherlands sale of November 1956) at least two more exist, including Kagan's GENA Sale 1978 specimen, which brought \$1,750. The specimen in Garrett III brought \$5,000 in EF, and was not as well centered as the presently offered specimen. Virtually fully lustrous obverse, raised spot at upper right; reverse slightly darker at center over map of Rhode Island. A major rarity with 5 or so known, 8.75 grams or 135.03 grains, slightly heavier than the 129 grain Garrett example. Several colonial coin specialists assert the authenticity of this piece. Compare to lot 174 in Stacks Roper collection, from same dies although inferior grade. With past sales records ranging from \$1,750 to \$5,000, this pewter piece should attract sharp bidder interest.

VERMONT COPPERS

- 1007 **1786 Cent** Ryder-6 **Fine-12**. VERMONTENSIVM variety. Sun rising over Green Mountains with seven trees, double cut U in PUBLICA. R-3 in Ryder, Kenneth Bressett's more recent research for Bicentennial, **Vermont Copper Coinage**, ANS 1976, calls rarity 6. Attractive even red, all devices clear.

- 1008 **1788** Ryder-16 **Fine-12**. Laureate mailed bust right, VERMON AUCTORI without stops; reverse seated Liberty with British Union Jack on shield (called Liberty by Hillyer Ryder), INDE ET LIB without stops, date in exergue. R-2, overall dark but clearly identifiable.

CONNECTICUT COPPERS

- 1009 **1785** M.4-F4, African Head, **EF-40**. With obverse a bit sharper than reverse, rare so choice.
- 1010 **1788** M.16.3.N **VF-20**. Draped bust left reverse IN DE ETLIB, branch hand opposite D, top leaf to first period. Well struck for type, dark red. R-3.

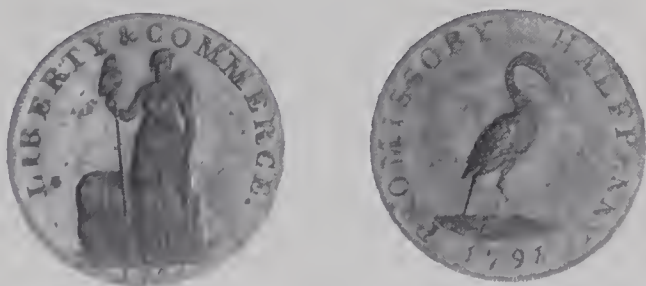

WASHINGTON PIECES

- 1011 **1783 cent**, Baker-1. Draped bust, UNITY STATES WREATH REVERSE VARIETY. **Fine-12** and sharp, cleaned and recolored, center details quite bold.

- 1012 **(1783) Washington & Independence cent**, Baker-3. Draped laureate bust left, copper engrailed edge restrike made circa 1860 by W.S. Lincoln of London. **Select Proof-63**, deep rich chocolate brown centers blending with a cartwheel of near full mint red. Very attractive. (\$300-400)

TALBOT, ALLUM & LEE CENTS

FUGIO CENTS

SPECTACULAR DOUBLE STRUCK, PARTIAL BROCKAGE FUGIO CENT ERROR

SEE COLOR PLATE

- 1016 **1787** Kessler 11-X, **MS-60 Uncirculated**. First struck from heavily clashed dies with irregular squares around rim from inner portions of the reverse links, this coin was apparently ejected as second coin was fed into press and struck, first coin introduced again off center as second descended on it, creating partial brockage of linked rings on obverse, doubled linked rings on reverse. Reverse die variety identification is made difficult by spectacular doubling, obscuring features most diagnostic for determining die used. Much mint luster, undoubled features sharply struck throughout. An exceptional error example of the first coinage for the United States authorized by Congress. Although Fugio pieces exist as off center strikes, few such outstanding errors as this can exist, fewer yet in this prime condition.

- 1017 **1787 Choice MS-65**. New Haven restrike, seldom seen on today's market in comparable condition!

FLOWING HAIR, WREATH REVERSE — 1793

- 1047 **1803**, 3 touches drapery, period after 1/100, S-253, **AU-50**. An outstanding specimen. Taylor is quoted as stating ex. NNC Doning lot 1945, and NNC Landau Lot 121 — but this piece is not the fully uncirculated one described there which has two minor spots on the obverse, missing on this coin. Attractive olive, brown and red color. One of the top dozen or so known. *EX: R.E. Naftzger, Jr; A. Kosoff Oct. 1961, Lot 302 illustrated.*

- 1048 **1803** S-258, Sharp **VF-30**. EF sharpness with lightly eroded planchet, well centered, chocolate color, large fraction. Acquired three years ago as EF.

- 1049 **1803** S-257, **EF-40**. Even brown color, nice strike, large fraction.

- 1050 **1804** Restrike of 1858-1860 **Choice AU-55**. Classic created by Philadelphia's Joseph J. Mickley with Edward W. Cogan from old dies discovered after Mint fire in 1816, sold as scrap iron. Obverse die of 1803 (Sheldon 261) was modified to read 1804, joined with reworked reverse of 1820 (Newcomb 12, reverse L) with its line under ONE CENT removed, letters strengthened. Early die state, struck on thick (2.7 mm) planchet, 28.15 mm in diameter, weighing 13.29 grams (205.09 grains). Attractive even light red color, smooth surfaces, reverse misaligned with ONE CENT virtually at right angles to obverse. Unusually appealing example of favorite stepchild of Large Cent series.

- 1051 **1804** Restrike of 1858-1860 **Choice AU-55**. As preceding, but only 2.3 mm thick planchet, off-round with diameter 28.8 to 29 mm, 10.6 grams (163.58 grains). Later die state, surfaces rougher, planchet slightly dished, deep red, grading into black around edges. Reverse alignment closer to normal upset U.S. standard, ONE CENT off normal by some 15 degrees. Interesting contrast to the preceding restrike in dimensions and appearance.

- 1201 **1862 MS-65 Choice Uncirculated**. An exceptional example with the sharpness and edges of a proof issue but without the full mirror fields associated with proof issues. Examination reveals extensive die polishing as well as an obvious clash. Light peripheral toning in golden-blue hues noted. The eye appeal of this coin is exceptional and we invite examination.

- 2003 **1805 VF-30**. Lightly clashed dies. Light gray toning with hints of gold. Die crack through last digit in date. Well centered and with good detail. Very minor circulation contact marks as one could expect. Absolutely no serious impairments or problems. Unquestionably a very choice example not only of this date, but also of this type.
- 2004 **1806 VF-20**. Shield weak on reverse, but with full motto and sharp wing feather detail. Old cleaning. Small cud on reverse.
- 2005 **1806/5 Overdate, Good-4**. Smooth clean surfaces, date and legends fully readable. **ANACS grading certificate (02-08-82) enclosed.**

- 2387 **1846-O** Small date, recut 1 in date, **EF-40**. Even wear, toned.
- 2388 **1846-O**, 6 over 6, **VG-8**. EX: Steve Ivy 1983 ANA mid winter auction lot 822, described at "1846 medium date, 6 over horizontal 6." Either overlooked or mistyped in the Ivy sale is the fact this coin is from the New Orleans Mint and as such is unlisted in the 1984 Red Book. This overdate is definitely distinct from the Philadelphia issue; the underlying numeral is inside and to the right of the final 6 while the other has the underlying 6 to the left of the final 6. Examination invited.

- 2389 **1847** Recut 7 in date, **MS-65 Choice Brilliant Uncirculated** with slight wisps of golden toning. Superbly struck in every detail, simply a spectacular beauty! A few tiny pinpoint contact marks present, but nothing of any noteworthy significance. This does not detract in any way from its pristine quality.
- 2390 **1848 EF-40**, sharp head and foot details. Old cleaning, but now toning nicely about peripheries. A very scarce and underrated date, especially in better grades.
- 2391 Interesting pair of Liberty Seated half dollars with repunched digits in the dates; **1848 Choice EF-45**. Brilliant. Evidence of prooflike surfaces. First two digits in date repunched. Well struck, scarce; **1856-O EF-40**. Essentially medium-gray toning with areas of blue, violet and gold about the periphery. Last two digits in date repunched. (Total: 2 pieces)

- 2393 Pair: **1848**, **1855-O** Arrows, recut obverse, double profile, date and stars, average sharp **VF-20**. Nicely toned, scarce and popular types. (Total: 2 pieces)
- 2394 **1848-O Choice EF-45**. Perhaps a bit nicer in terms of wear but surface has been lightly wire brushed. Also, the obverse has apparently been subjected to heat as there are tiny bubbles in evidence; one large one on her abdomen and others in the fields. Close examination suggested.
- 2395 Group of eight: **1848-O**, **1850-O**, **1853** Arrows and rays, **1854-O** Arrows, **1854-O** Arrows, damaged edge, **1854-O** Arrows, recut date, **Good-4** or slightly better; **1857-O**, **1858-O** Sharp **VG-8** bordering on **Fine-12**. (Total: 8 pieces)
- 2396 Group of three: **1849 AU-50**. Cleaned, possibly lightly polished long ago, now toned a deep violet about the periphery with brilliant centers. Scratch through last digit in the date; **1854** Arrows, **Choice EF-45**. Smoky golden-gray toning over harshly cleaned surfaces; **1856-O Choice EF-45**. Old whizzing under dark violet brown toning. (Total: 3 pieces)

- 2399 **1850-O AU-50**. Nice strike, golden luster, only faint rubbing highest points.
- 2400 Group of five: **1850-O**, cleaned, **1855-O** Arrows, **1858-O**, **1860-O**, **1861-O VF-20** or better. Nice circulated lot New Orleans Mint issues. (Total: 5 pieces)
- 2401 **1852 VF-20** and sharp. Lowest coinage of all dates in 1850's. Most melted at mint after July 1853 for silver value.
- 2402 **1852-O VF-20** and sharp. Nicely toned, even balanced wear. Scarce low coinage date.

LIBERTY SEATED, ARROWS AND RAYS 1853

- 2403 **1853 MS-60/MS-63 Select Brilliant Uncirculated**. Fairly lustrous surfaces beneath subduing light toning. Softness of strike is noted on portions of Liberty and on the right leg of the eagle. In all a very presentable example of a popular type coin.
- 2404 **1853 Choice EF-45**, AU-50 sharpness. Excellent details, but cleaned. Handling marks. Popular one-year type.

BARBER/LIBERTY HEAD — 1892-1915

2467 **1892 MS-63 Select Brilliant Uncirculated.** Lovely luster, virtually a full strike, a few faint contact marks on cheek. A splendid example of this first year of issue.

2468 **1892-O Choice AU-55** or better. A difficult coin to grade due to an overall weakness of strike; some argument can be made as to it being an Uncirculated example. With semi-prooflike to full prooflike fields.

2469 **1892-O Choice AU-55.** Dark gray toning with silvery brilliance about the devices and letters on reverse. Recent light hairline scratch across Liberty's cheek, one above her head and another from her forehead back across cap to the rim at 10 o'clock. Unfortunately, the coin's dark toning makes these scratches stand out more than they should.

2470 **1899 Choice AU-55,** with a lustrous appearance superior to its technical grade. Only very light wear noted and somewhat obscured by attractive light toning. Examination invited.

2471 **1901 MS-63 Select Brilliant Uncirculated.** Well struck with virtually full luster, some splashes of golden russet tones about peripheries. Ideal for type set.

2472 **1906-D EF-40.** Even wear. Some luster remaining about the devices. **ANACS grading certificate (7-29-81) enclosed.**

2473 **1907-O Choice AU-55.** Attractive with only slight wear and considerable luster, touch of very light toning; could be considered very near Uncirculated.

2474 **1908 Gem Proof-67.** Glittering slightly golden, some toning lower left obverse; lovely specimen with only 545 struck.

SEE COLOR PLATE

2475 **1909 MS-65 Choice Brilliant Uncirculated.** Spectacular original toning and luster. Absolutely pristine in all respects. An outstanding candidate for inclusion in date or type set.

2476 **1910 Proof-60.** Cloudy obverse, brilliant reverse, scattered light obverse hairlining.

2477 **1911 Choice EF-45.** Even wear. Some hairlines. Toning of questionable origin.

2478 **1915 MS-63 Select Brilliant Uncirculated.** Lustrous and attractive with only a scattering of minor contact marks. Die polishing (not hairlines) is evident on the reverse and the overall appearance of this key date issue is very appealing. Offers the astute buyer an opportunity to acquire a truly mint state example of this rare date. In fact, with its low mintage of just 138,450, this date has the second lowest business strike mintage in the entire Barber Half Dollar series.

2479 **1915-S MS-63 Select Brilliant Uncirculated** with attractive satiny luster and a minimum of marks. Some softness of strike on the reverse eagle but overall very eye appealing. Just a trace of light original toning evident.

SILVER DOLLARS

FLOWING HAIR — 1794-1795

- 2631 **1795** Two leaves, B-1, **VG-8/Fine-12.** Probably once a lucky piece for some individual as evidenced by a hole at top and the initials JH slightly etched on the obverse. The coin itself is dark gray with lighter devices and no real problems other than those mentioned.

- 2632 **1795 B-5, three leaves below wing, Fine-12.** Hair details trifle weak at centers. Some light scratches on reverse, but overall the surfaces are very nice for a coin of this grade. Light gray and steel toning. Popular early type.

- 2633 **1795 B-5, three leaves, VG-8, with detail and sharpness of Fine.** Rather harshly cleaned, small cluster of pit marks on chin noted, but nevertheless a very desirable example of this popular short-lived type.

DRAPED BUST, SMALL EAGLE 1795-1798

- 2634 **1795 B-14**, bust centered to far left, **VG-8**. Old cleaning evident, a number of small scratches and handling marks, yet coin displays strong hair and full border details. Scarcer than the more popular Type 1.

- 2635 **1796 B-4 VF-30**. Excellent sharpness both sides, nice clean, wholesome surfaces despite the tiny punch mark in right obverse field. Attractive light steel-gray toning.

- 2636 **1797 9x7 Stars, VF-30/EF-40**. Large letters, small eagle. Popular type. Uneven gray toning with gold undertones. Couple of scratches on Liberty's shoulder. Well centered, good eye appeal.

HERALDIC EAGLE REVERSE 1798-1804

- 2637 **1798 EF-40**. Apparently cleaned, but still a very attractive example with relatively minor handling marks. Overall fairly well struck except for softness of some reverse stars and cloud detail above. Possibly an unlisted variety, not attributable to Bolender as far as we can determine. Interesting die cracks through stars and date on obverse; stem through eagle's claw on reverse extends to bottom rim.

- 2638 **1799 B-8 VF-20**. Lightly polished, normal handling marks, near full dentilations and strong hair, wing and feather detail.

- 2639 **1799 B-5 Fine-12**. Even wear, nice clean, wholesome surfaces, devoid of any mentionable marks.

- 2640 **1801 B-4 VF-30**. Rarity 5. A simply outstanding coin; even wear, well centered, almost mark-free surface and toning in shades of gold, violet, green, blue and red. The tiniest of rim nicks at 3 o'clock, 7mm long planchet irregularity to left of eagle's beak on reverse. Nice.

LIBERTY SEATED, NO MOTTO 1840-1865

- 2641 **1842 Choice EF-45**. Wirebrushed, otherwise surfaces surprisingly free of marks.

- 2642 **1844 Choice EF-45**. Prooflike fields under dark gray and violet toning. Numerous tiny circulation marks. Obverse planchet irregularity between the tenth and eleventh stars. Low mintage of just 20,000. Noted silver dollar expert Bruce Amspacher states this coin is scarce in all grades and we concur.

- 2643 **1845 Choice EF-45**. Medium toning. Some hairlines. Low mintage.

2644 **1846 MS-60 Uncirculated**, close to Select. Light golden luster, light marks in field, sharp strike.

2645 **1846 VF-30**. Medium gray toning.

2646 **1846-O VF-20/EF-40**. Attractive reverse stronger, golden bluish toning. Scarce.

2647 **1847 AU-50**. Somewhat reflective mirrored fields and square borders similar to Proof specimens. Cleaned at one time. Planchet impurities on both the obverse and reverse, the most notably by Liberty's right hand.

2648 **1847 Choice EF-45**. Lightly cleaned long ago. Light gray in color. Attractive obverse while reverse shows a planchet impurity under the second T in STATES and dark discoloration near the eagle's right wing. Attractive strike.

2649 **1847 EF-40**. Somewhat dull gray toning with evidence of a prooflike surface about the devices. Even wear. Scattered hairlines but none of a distracting nature.

2650 **1847 EF-40**. Light marks, bluish golden toning.

2651 **1847 VF-30**. Once cleaned, now light gray in color, even wear.

2652 **1847 VF-20**. Light to medium gray in color. Some hairlines. Tiny circulation marks.

2653 **1847 VF-20**. Cleaned, now with gray toning. Old scratch by date, others in right obverse field. Tiny obverse rim nick at 4 o'clock.

2654 **1849 Choice EF-45**. Prooflike. Once cleaned and now toned a lovely lilac. A few tiny rim nicks. Wire edge. Scattered marks indicative of grade. A pleasing high-grade circulated example of this underrated date.

2655 **1849 EF-40**. Obverse brightly cleaned, reverse a mottled blue in color. Minor rim nicks. Low mintage example of this date.

2656 **1849 VF-30**. Brightly cleaned, now with scattered dark peripheral obverse toning, one of only 62,600 struck.

2657 Pair: **1849 Good-4**. Rim damage 12 o'clock obverse, wirebrushed; **1871 Fine-12**. Polished, plus slight rim bruise 5 o'clock obverse. (Total: 2 pieces)

2658 **1850-O VF-20**. Cleaned long ago, now uneven gray in color. Light hairlines. Even wear, usual circulation marks. Light rim nicks. Low mintage of just 40,000.

2659 **1850-O VF-20**. Light gray toning. Some hairlining. Even wear. Claims to a higher grade.

2660 **1850-O Fine-12**. Evenly worn. Medium gold and gray toning. Evidence of dark obverse toning streak.

2661 **1850-O VG-8**. Cleaned long ago, now a dark bluish-gray and gold in color. Small reverse rim bump at 9 o'clock. All in all, attractive example of grade.

2662 **1857 Select Brilliant Proof-63**. Exceptionally sharp, fully detailed obverse, minor hairlines in fields. Eagle equally sharp. Although the number of Proofs of this date is not known, few this select survive. *EX: Stack's Autumn Sale, 1978, lot 329.*

2663 **1859 EF-40**. Once cleaned and now brilliant. Typical weakness to Liberty's head and star centers. Scattered tiny contact marks. An underrated date.

2664 Pair: **1859-O EF-40**. Numerous hairlines from old cleaning. Medium golden-gray in color; **1860-O VF-30**. Artificial dark toning. Surfaces respectable. (Total: 2 pieces)

2665 **1859-O EF-40**. Once cleaned, now somewhat brilliant. Traces of prooflike surface, tiny circulation marks and hairlines.

2666 **1859-O EF-40**. Cleaned once, some hairlines. Some contact marks, but nothing serious. **ANACS grading certificate (8-15-81) enclosed.**

2667 Group of three: **1859-O VF-20**. Once cleaned, now with brilliant centers and dark peripheral toning; **1860 VF-20**. Light gray color. Circulation marks and rim nicks; **1860-O VF-30**. Cleaned to a light gray. Hairlines. Scratch by date. (Total: 3 pieces)

2668 **1860-O MS-60 Uncirculated**. Attractive and lustrous example with only minor marks and attractive gray-gold toning. Excellent for type or as an example from the popular New Orleans Mint.

2669 **1860-O Choice EF-45**. Attractive light golden-gray toning. Prooflike. Scattered hairlines. Choice example of this grade.

LIBERTY SEATED, WITH MOTTO 1866-1873

QUARTER EAGLES (\$2½ GOLD)

LIBERTY HEAD — 1840-1907

3036 **1843-O** Small date, crosslet 4, **VG-8**. Lightly cleaned, some hairlines.

3037 **1857 AU-50**. Light gold color, very softly struck.

3038 **1857-S Fine-12/VG-8**. Lightly burnished, otherwise no problems worthy of mention.

3039 **1869-S Choice EF-45**. Light toning with considerable luster remaining about the devices, especially on the reverse. Typical strike: little hair detail over the forehead and the eagle's right leg.

3040 **1878-S Choice EF-45**. Fairly good luster and color and only a number of tiny bagmarks hold it from an AU-50 grade.

3041 **1889 MS-60 Uncirculated**. Golden coppery reddish brown, somewhat subdued luster. Light hairlines. A relatively low coinage date of 17,648 pieces.

3042 **1890 Choice EF-45**. Subdued coppery toning, hints of prooflike tendencies. Light hairlines in field, scarce low coinage date with mintage of 8,813 pieces.

3043 **1899 MS-63 Select Brilliant Uncirculated**. Very near Choice. Rich luster, completely original. Minor planchet impurity by last star; stunning reverse. Moderately scarce date.

3044 **1900 Choice AU-55**. Lustrous and brilliant, light friction.

3045 **1901 Proof 45/45**. Slightly impaired Proof. Light wear and scattered marks but still quite attractive. **ANACS grading Proof 45/45 certificate (12-03-81) enclosed.**

3046 **1904 MS-65 Choice Brilliant Uncirculated**. Sharp strike! Superb satin mint luster, virtually pristine. A few trivial gold spots present, but nothing of any noteworthy significance. Excellent for a date or type set.

3047 **1904 MS-63 Select Brilliant Uncirculated**. Very lustrous, a few light hairlines but quite nice overall.

3048 **1905 MS-65 Choice Brilliant Uncirculated**. Beautiful satin lustrous surfaces. A nice coin for type.

3049 **1906 MS-60 Uncirculated**. Satin luster, nice coppery brown toning, light hairlines.

RARE PROOF 1907 QUARTER EAGLE

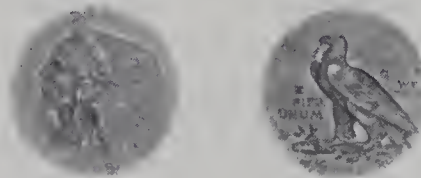

SEE COLOR PLATE

3050 **1907 Choice Brilliant Proof-65**. Lovely delicate yellow gold color, immaculate glittering deep full-mirror surfaces with some cameo contrast evident. Only 154 Proofs coined, seldom available in this outstanding state of preservation. Very popular last year of \$2½ Liberty Head denomination. An item that should excite even the most fastidious collector.

3051 **1907 MS-63 Select Brilliant Uncirculated**. Shimmering satin mint luster. A few light contact marks in field.

3052 **1907 MS-63 Select Brilliant Uncirculated**. Fully original, light gold toning. Attractive.

INDIAN HEAD — 1908-1929

3053 **1908 Matte Proof-60**. Deeply toned fields with lighter areas around rims from careless handling or storage. Reeding sharp; overall an interesting example of Bela Lyon Pratt's innovative incuse-relief design. *EX: New England Rare Coin Galleries.*

3054 Group of three: **1908, 1910 and 1915** all **Choice EF-45**. Typical for type and era.

3055 **1909 EF-40** and sharp. Greenish gold luster, light marks and abrasions.

3056 **1911 AU-50**. Light wear.

WHAT TO BID ON

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

3057 **1911-D Choice AU-55.** Only light wear and considerable luster evident. Average sharpness for the mintmark and an excellent example of this popular key date issue.

3058 **1925-D MS-63 Select Brilliant Uncirculated.** What many would call Choice or Gem; full blazing luster and a minimum of marks, a premium coin.

3059 **1925-D Choice AU-55.** Just the slightest touch of friction. Fully lustrous, what many would call Mint State.

3060 **1926 MS-63 Select Brilliant Uncirculated.** Very lustrous, quite attractive and wholly original.

3061 **1929 MS-63 Select Brilliant Uncirculated.** Quite lustrous.

3065 **1865 AU-50.** Sharpness with only light wear. Prooflike. A number of tiny contact marks are visible under close examination but overall eye appeal is quite good. This date has the lowest official mintage (1,165) of the entire series. Akers states that it is the fifth most difficult date to locate in Choice condition and seldom offered above VF-30. Certainly one of the finest examples on today's numismatic market.

3066 **1874 AU-50.** Delicate golden orange color, some slight rubbing on high points.

THREE DOLLAR GOLD 1854-1889

3062 **1854 AU-50.** Pleasing example of this first year of issue with considerable luster and only tiny marks. Some have claimed the 1854 issues should be a one year type as the word "dollar" is about half the size of 1855-1889 issues. In any case this example should receive serious consideration by the astute bidder.

3067 **1874 Choice EF-45.** Light wear with some weakness of strike on the reverse. Considerable luster evident in the fields and good overall eye appeal.

3063 **1854 AU-50.** Considerable luster, a few pinpoint marks on cheek, but lovely clean mark-free fields. First year of denomination.

3068 **1878 Choice AU-55.** Light coppery gold color, much luster around devices, slight rubbing.

3069 **1878 VG-8.** Ex-jewelry. Lightly brushed, numerous contact marks. Possible mount removal at 12 o'clock.

3064 **1858 VF-30.** Lightly hairlined from an old cleaning. Tiny obverse edge nick at 2 o'clock. Pale gold color. Rare, just 2,133 struck. According to Akers, "an 1858 in any grade is rare and it is doubtful if more than 75-100 total pieces still exist, if that many."

HALF EAGLES (\$5 GOLD)

CLASSIC HEAD — 1834-1838

3070 **1834 Plain 4, AU-50.** Sharp strike, most show varying degrees of weakness in strike, slight friction.

3071 **1834 Plain 4, VF-30.** Once lightly cleaned. Traces of a prooflike surface.

3072 **1834 Plain 4, VF-30.** Underlying flashes of yellow gold color, usual light bagmarks.

SEE COLOR PLATE

3073 **1835 MS-60 Brilliant Uncirculated.** Glittering yellow gold, signs of old dipping, some light hairlines as usual. Much sharper in strike than most seen. Overall very attractive.

3074 **1836 EF-40.** Nice strike, sharp with traces of luster. Variety with bisecting reverse die break.

3075 **1836 VF-20.** Perhaps a bit nicer. Lightly cleaned long ago and now a medium gold color. Scratch in front of forehead. Attractive medium grade type.

3076 **1837 AU-50.** Rich golden color. Great deal of mint luster remaining, especially about the periphery and devices. Attractive strike and relatively problem free, the most obvious problem being a light scratch under the 8 in the date. According to Akers, this date is scarce and underrated and rarer than the 1834 Plain 4, 1835, 1836 or 1838 of the same type. Quite desirable and attractive.

LIBERTY HEAD, NO MOTTO 1839-1866

3077 **1839 VF-30.** First year of Coronet type, believed by some numismatists to be an 1839 over 1838 overdate and so recorded in the 1979 Red Book. Final digit has ball of nine joined to loop. Balanced wear, nice detail overall for very acceptable first year specimen.

3078 **1840 Type 39, large planchet, AU-50.** Light friction, scarce.

3079 Group of three: **1843 EF-40.** Numerous obverse scratches, especially in area of the date. Residue on reverse, perhaps glue or lacquer; **1880 VF-30.** Light brushing or pencil eraser in area of date and Liberty's neck; **1886-S EF-40.** Entire surface wire brushed. (Total: 3 pieces)

3080 **1843-O Small letter, VF-20.** Rare. Lightly brushed, a few light scratches, including one behind Liberty's head.

3081 **1844-D Fine-12.** Lightly cleaned long ago; southwest half of obverse appears to have been rubbed with an eraser or lightly brushed.

3082 **1847 Choice AU-55.** Numerous tiny nicks noted but acceptable for grade. Only light wear and near full luster evident.

LIBERTY HEAD, MOTTO 1866-1908

3083 **1870-CC VF-20.** Appears to have been lightly cleaned, perhaps with an eraser, though mint luster still adheres near the devices and letters, especially on the reverse. No serious scratches or nicks. Very rare! Just 7,675 struck. Akers states he has seen fewer of this date than any other Carson City half eagle. Only a few EF's are known, so this VF-20 example represents an excellent opportunity to acquire a choice example of this scarce date.

3084 **1872-CC Good-4.** Full obverse rim, reverse rim wearing into tops of some of the letters. Brassy gold color.

3085 **1880-CC VG-8.** Evenly worn. No serious problems. Mintage of just 51,017.

3086 Pair: **1880-S VF-30.** Lightly cleaned; **1884 Choice EF-45.** Also lightly cleaned. (Total: 2 pieces)

3087 **1881-S Choice EF-45.** Golden coppery color, traces of luster, light hairlines obverse.

3088 **1882 Choice EF-45.** Lightly cleaned, minor circulation marks.

3089 Pair: **1882 EF-40.** Possibly lightly cleaned at one time; **1900 Choice EF-45.** A deep scratch on Liberty's cheek. Otherwise, this coin is rather attractive. (Total: 2 pieces)

3090 **1882-S MS-63 Select Brilliant Uncirculated.** Shimmering satin gold luster, near full mint bloom.

3091 **1884-S Choice EF-45.** Reverse a bit nicer. Original color and luster. Very little wear but graded EF because of scattered contact marks. Better than common date.

3092 **1886 Fine-12.** Sharp, near VF-20.

3093 **1886-S EF-40.** Attractive type. No serious problems.

3094 Pair: **1886-S, 1897 VF-20.** Both pieces lightly polished. (Total: 2 pieces)

10% - 10%

Kagin's Numismatic Auctions has instituted a 10% consignment/buyers commission structure. This centuries' old European system is becoming widely accepted by most of the major numismatic firms in the United States.

- 3095 **1890-CC MS-60 Brilliant Uncirculated** and what many would call MS-63. Full original luster. Scattered tiny contact marks and a couple light hairlines but nothing major. Scarce in Mint State; this coin is very appealing and is certain to receive considerable action.
- 3096 **1891-CC EF-40.** Small obverse rim nick at 2 o'clock. Popular branch mint issue.
- 3097 **1891-CC VF-30.** Even wear, fewer than usual marks.
- 3098 **1891-CC VF-20.** Balanced even wear, relatively minor marks.
- 3099 **1892 Choice AU-55.** Deep lustrous orange-gold color, only barest rubbing.
- 3100 **1895 VF-20.** Cleaned, usual light marks and hairlines.

- 3102 **1897 AU-50.** Lustrous. Light toning. Tiny contact marks but none serious.
- 3103 Pair: **1897 Choice EF-45.** Lustrous and attractive; **1903 EF-40.** Lightly cleaned at one time. (Total: 2 pieces)
- 3104 Pair: **1899 EF-40** and **1900 Choice EF-45.** Both coins have light toning and scattered hairlines, especially the 1900. (Total: 2 pieces)

- 3105 **1901 Proof-60.** Brilliant obverse, slightly cloudy reverse. Deep mirror surfaces intact. Scattered handling marks and light hairlines but not as severe as one would expect to see on a coin of this grade. Tiny rim nicks but, again, not severe. Scarce Proof issue; just 140 struck.
- 3106 **1901-S Choice Brilliant AU-55.** Full original mint luster and color. A shame a coin this attractive has to be called AU because if not for just the faintest trace of friction, this coin would immediately jump 8 points in grade.
- 3107 **1902 EF-40.** Nice sharp detail, some luster around devices. Near totally free of usual marks and hairlines.
- 3108 Pair: **1902-S EF-40.** Reddish tint. Obverse rim nick at 3 o'clock; **1905-S EF-40.** Lightly cleaned at one time. Moderately scarce according to Akers. (Total: 2 pieces)

- 3113 **1909-D MS-63 Select Brilliant Uncirculated.** Delicate golden color, near full mint luster. Sharply struck with feather details of headdress quite well defined. A few light hairlines in field.
- 3114 **1909-D AU-50.** Only barest rubbing, much original luster still adhering to surfaces. Usual minor abrasions.
- 3115 **1909-D AU-50.** Light wear with a few minor marks noted. Popular type and date.
- 3116 **1909-D Choice EF-45.** Attractive type with no serious problems.
- 3117 **1909-D EF-40.** Even wear, old dipping. Worth a close look by determined collector.
- 3118 **1910 Choice EF-45.** Recessed luster.
- 3119 **1910 Choice EF-45.** Lustrous.
- 3120 **1911 VF-20.** Usual light field marks.

- 3124 **1913 Choice EF-45.** Trace of reddish toning in devices. Recessed luster.

- 3125 **1914 MS-63 Select Brilliant Uncirculated.** Superb satiny mint bloom. Sharply struck, only a few light bagmarks away from a higher category, ideal for type.

EAGLES (\$10 GOLD)

1838-1866

- 3126 **1840 EF-40**. Once lightly cleaned, traces of prooflike surface. Usual circulation marks. Typical, if not actually better, of specimens of this date usually offered; Akers states AU examples are very rare. *EX: Kagin's 1978 GENA Sale, lot 2051.*

- 3128 **1847 EF-40**. Light cleaning. Tiny circulation marks. A few tiny rim nicks. Popular No Motto type coin.
- 3129 **1847 VF-30**. Nice circulated example, relatively minor handling marks.
- 3130 **1849 Breen-5 variety, EF-40**. Die crack on reverse extending from A in STATES through eagle to E of TEN at bottom rim. Attractive golden yellow, hints of luster, usual light marks in field.

- 3140 **1886-S Choice EF-45**. Traces of luster, light wear on high points of obverse.
- 3141 Pair: **1886-S EF-40**. Pair of contact marks on Liberty's chin, others in front of nose; **1899 Choice EF-45**. Much original luster remaining. Scattered light contact marks. (Total: 2 pieces)

- 3150 **1893-O MS-60 Uncirculated**. A number of tiny contact marks but no wear. Full original luster with light toning. Unusual because unlike most coins of this date, this piece is neither prooflike nor semi-prooflike. Just 17,000 struck. Scarce.
- 3151 **1894 MS-63 Select Uncirculated**. Trace of light rose toning over lustrous surfaces, full cartwheel. No significant marks though there are some light hairlines.

- 3175 **1932 MS-63 Select Brilliant Uncirculated.** Virtually full original luster and color. Excellent sharpness throughout all details, particularly the top hair strands. Save for a few minor scuff marks on cheek, this specimen would surely grade much higher.
- 3176 **1932 MS-63 Select Brilliant Uncirculated.** Very near Choice; blazing mint luster and lovely greenish-gold toning. Tiny planchet flaw by obverse rim at 4 o'clock. Outstanding eye appeal.

- 3177 **1932 MS-60 Brilliant Uncirculated.** Glittering lustrous yellow gold color and well struck. Light marks on cheek of Liberty, eagle's neck and breast. Overall a lovely example of this issue.

DOUBLE EAGLES (\$20 GOLD)

LIBERTY HEAD, NO MOTTO 1850-1866

- 3178 **1851-O EF-40.** Attractive greenish-gold toning. Some circulation marks as one could well expect of a coin this size. Luster remaining about the devices. Evidence of a prooflike surface typical of this issue.

- 3179 **1858-S AU-50.** Lustrous, completely natural surfaces. Light gold color. Just a bit of wear, a few minor hairlines. No serious problems and great overall eye appeal. With uncirculated examples rare, this is an excellent opportunity for the collector to obtain a highly desirable example of this early date.

LIBERTY HEAD, MOTTO VALUE TWENTY D. — 1866-1876

- 3180 **1873 Closed 3, sharp VF-20.** Golden yellow color, a few scattered light field abrasions noted. Rare variety and date type (decidedly more so than the common Open 3 variety).

LIBERTY HEAD, REVERSE TWENTY DOLLARS 1877-1907

- 3181 **1877-CC Fine-12** or slightly better, especially the reverse. Even wear; considering the degree of circulation, this coin is quite attractive. Just 42,565 struck.
- 3182 **Pair: 1880, 1881 VF-30.** Both rather typical. (Total: 2 pieces)
- 3183 **1884-CC AU-50.** Only a trace of wear but some light hairlining and contact marks. Pale gold color with hints of rose. Lustrous, reasonably well struck. Minor edge ticks. A very attractive example from this popular branch mint.
- 3184 **1888 MS-60 Brilliant Uncirculated/MS-63 Select Brilliant Uncirculated.** Nice luster and devoid of the usual bagmarks. One nick on Liberty's nose prevents a full MS-63 or better grade. Scarce date.
- 3185 **1900 MS-63 Select Brilliant Uncirculated.** Beautiful greenish-gold toning. Some microscopic hairlining on Liberty's cheek and in the left field that can only be seen if tilted correctly in a strong light. Small indentation on Liberty's chin. Excellent luster, good eye appeal.

- 3186 **1901 MS-60 Uncirculated.** Full luster with pleasing gold toning. Would grade three points higher if not for scratch on Liberty's chin.
- 3187 **1903 MS-63 Select Brilliant Uncirculated.** Very near Choice save for a few very light obverse hairlines that only become visible when the coin is tipped in strong light. Full mint luster. Attractive light toning. Good eye appeal.
- 3188 **1904 MS-60 Brilliant Uncirculated.** Delicate golden yellow color, practically no marks worth mentioning but hair details trifle weak.
- 3189 **1904 AU-50.** Glittering golden color, nice luster. A few light marks on cheek and in field.

SAINT-GAUDENS, ROMAN NUMERALS NO MOTTO — 1907

SEE COLOR PLATE

- 3190 **1907 EF-40.** Popular high relief St. Gaudens with good eye appeal and only light wear on the high points. May have been lightly cleaned long ago, resulting in an attractive subdued luster. Certainly, this example will receive serious consideration by value-minded collectors.

SAINT-GAUDENS, ARABIC NUMERALS NO MOTTO — 1907-1908

- 3191 **1908 MS-65 Choice Brilliant Uncirculated.** Well struck, shimmering lustrous near mark-free surfaces.

- 3315 **1883-CC MS-65 Choice Brilliant Uncirculated**. Very lustrous with fewer contact marks than most Carson City dollars offered, appealing piece.
- 3316 **1883-CC MS-65 Choice Brilliant Uncirculated**. Shimmering satin prooflike surfaces. Only a few trivial field marks present. In original government case of issue.

- 3325 **1883-S Choice AU-55**. Actually closer to Mint State than to AU-55; we doubt if this coin ever saw circulation but instead picked up a hint of cabinet friction on Liberty from somewhere. Almost completely brilliant but for a small area of dark gold toning on the obverse. Possibly lightly cleaned or dipped at one time.

Beautiful fields. If not for a milling mark under Liberty's eye, this coin would probably grade MS-65; **1887 MS-63 Select Uncirculated**. Near Choice, probably most would call MS-65 but downgrade for splotchy gold toning and subdued obverse luster. (Total: 3 pieces)

TRADE DOLLARS — 1873-1885

SEE COLOR PLATE

- 3494 **1873 Select Proof-63.** A simply outstanding coin; beautiful natural autumn toning with green undertones and full mirror surfaces. Indeed, at first glance a Proof-65 or better grade would seem warranted, but upon close examination with a magnifying glass, microscopic hairlines can be seen under the toning, most noticeably in the right obverse field. Some may say this is nit picking, and perhaps it is.

The strike is a bit weak and is most evident in the eagle's left claw. However, the star centers and head detail of Liberty are clear, reverse wire rim. First year of issue and very popular for that reason. Mintage unclear; 865 according to Boosel, 790 according to Julian (See page 146 in Breen's "Encyclopedia of U.S. Proof Coins.")

A premium coin, certain to receive strong competitive bidding that, we feel, will carry this coin near the price level of a Proof-65!

- 3495 Group of three: **1873 EF-40.** Dark, natural toning. First year of issue; **1873-S VF-30.** Wire brushed; **1875-S EF-40.** Scattered circulation marks, hairlines. (Total: 3 pieces)
- 3496 Group of three: **1874-CC,** Medium toning. Very light brushing. **1875-CC,** wire brushed, especially so on reverse where an attempt has been made to smooth two bulges (solder?), one to the side of the eagle's left wing, the other by the arrow points. **1877,** wire brushed. Gold and gray toning. Prooflike about devices. All **EF-40.** (Total: 3 pieces)
- 3497 Pair: **1874-S** and **1875-S** both **VF-20.** Both with numerous chop marks. Uncleaned. (Total: 2 pieces)
- 3498 **1875-CC Choice AU-55/55.** Brilliant. Somewhat weakly struck. Scratch by eagle's right wing. Noticeable porosity in right obverse field. Hairlines and contact marks. **ANACS grading certificate (07-24-81) enclosed.**
- 3499 Pair: **1875-CC** Type 1 reverse, **EF-40.** Pleasingly toned, sharp head detail, fields slightly burnished; **1875-CC** Type 1 reverse, **Fine-12.** (Total: 2 pieces)
- 3500 Pair: **1876-S Choice AU-55.** Brilliant. Noticeable obverse punch mark (chop?) at base of grain stalks, reverse chop near eagle's right claw; **1877-S AU-50.** Deep prooflike. Light hairlines and scratches. Obverse chop over branch only. Attractive and unusual pair. (Total: 2 pieces)
- 3501 **1876-S AU-50.** Brilliant. Light hairlines from cleaning. One chop mark on Liberty's left hand.
- 3502 **1878-S MS-60 Uncirculated.** Multi-color toning. Some striking weakness. Numerous tiny contact marks and hairlines but no wear. Semi-prooflike.

ADDITIONAL CONSIGNMENTS

EARLY AMERICAN COINAGE

- 4001 **1783** Washington UNITY STATES cent, **VF-20**. Nice brown and steel color, sharp devices, devoid of the often seen surface problems. Usual planchet striations (as made) encircle peripheries.

HALF CENTS

- 4002 **1793** Head Left, C-3, **VF-30**. Chocolate color, slight waviness, but mostly free from porosity. A few shallow dents noted, especially in obverse. Overall a very presentable specimen of this popular first year of half cent coinage.

Copper 1823 pieces with reeded edges have long been associated with Philadelphia numismatist Joseph Mickley's private restriking from salvage dies in the late 1850s. (See Stewart P. Witham's "Rusty Dies, Mint Sports Abound in Half Dollar Patterns" and Thomas K. DeLorey's "What Would You Call" column, *Numismatic Scrapbook*, November 1974 and September 1975.) The known Mickley pieces were struck from dies purchased as scrap steel from the Mint; Witham notes reeded edges on all he has examined, while Judd records plain edges for J-47. The GENA coin's incuse-lettered edge is typical of the 1814-1831 period for half dollars. Mickley's creations are believed to date from 1858-61; Mint attempts to revive lettered edges in 1860 saw only three letters and one star visible on the Liberty Seated copper half dollar, Judd 269. (See Kagin's 1983 ANA Sale, lot 3026).

This 1823 lettered-edge copper half dollar may be the discovery that will clarify some of the Witham-Judd uncertainty as to the existence of Mint-struck halves in copper versus Mickley's later additions. Judd 47 is listed as R-8, while this unrecorded edge-lettered type must plainly be of even greater rarity, quite possibly unique.

RARE 1915 OCTAGONAL
PANAMA-PACIFIC GOLD \$50

SEE COLOR PLATE

- 4158 \$50 MCMXV (1915) Octagonal planchet. **MS-63 Select Brilliant Uncirculated**. UNITED STATES OF AMERICA. FIFTY DOLLARS around helmeted Minerva, motto and date. Reverse owl, symbol of wisdom, PANAMA-PACIFIC EXPOSITION SAN FRANCISCO legend, dolphins in angles. Round and octagonal Panama-Pacific \$50 were only Roman numeral-dated coins other than the famous Saint-Gaudens 1907 \$20.

Some \$50 octagonal coins were struck at actual fair grounds in memory of Augustus Humbert's earlier California gold "slugs" of the U.S. Assay Office. Only 645 1915 coins were sold of 1,500 struck, the remainder being melted as popularity of the issue waned.

This specimen exhibits lovely golden yellow color, only minimal scattered marks on Minerva's cheek, but nearly totally free of disfiguring rim nicks and dents that plague many surviving examples of this historic issue.

Immensely popular gold commemorative, should prove as strong an investment medium as in the past. Historic massive gold coin of proven investment potential.

SCARCE INVERTED SHEET

- 4450 **5¢ F-1230** full sheet of 20. The only known full sheet of inverts. The sheet grades **Extra Fine**, with the individual notes grading **Extremely Fine** to **About Uncirculated**. This unique sheet should sell in the \$3,000 to \$5,000 range.

4453 Pair: **15¢ F-1272-SP**. Although a narrow margin pair, these are not from a Shield and must have been cut down from a wide margin pair as the margins are wider than most seen. Lovely and popular. **Gem Crisp Uncirculated**. (Total: 2 pieces)

Each purchase is covered by Kagin's Lifetime Guarantee of Authenticity and Grading, which means that all coins furnished by Kagin's will meet or exceed the grading standards of the American Numismatic Association, or they will be replaced or the purchase price refunded. This guarantee is backed by Professional Liability Insurance and Kagin's half-century reputation of integrity.

As a participant in Kagin's Monthly Investment Program, you have a thirty-day approval period in which you may return the current month's selection for exchange or credit. This personal service is provided free of charge at all Kagin's auctions.

WANT LIST SERVICE _____

Kagin's numismatic professionals attend major coin shows throughout the country. They are uniquely positioned to make advantageous acquisitions for our clients, on approval or otherwise.

When you send your want list to Kagin's, our professionals will use them as a basis for auction purchases, without obligation on your part, or will buy specific items for you on request and within predetermined price limits.

Art or Don Kagin are always available for personal consultation in numismatic matters.

Your material will be personally evaluated by our expert numismatic staff. All paperwork, pregrading, and promotional arrangements will be made immediately, in your presence.

You will return home confidently, knowing your material will be receiving Kagin's professional handling.
